DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 20 and 21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The limitation drawn to the tabs not required to be pivoted to a non-flexible position within the tire to hold front panel in a predetermined position is not supported by the original specification. This limitation was added in the amendment filed December 10, 2004. The specification appears to clearly indicate the tabs are to be bent or pivoted for insertion into the tire.

3. In paragraph 40, the applicant recites "Tabs 30, 40, 50 and 60 are bent along scored edges 31, 41, 51 and 61, respectively so that tabs 30, 40, 50 and 60 protrude outwardly away from the front panel section 20. The

tire insert 10 is then inserted into the central opening of a tire so that tabs 30, 40, 50 and 60 hold the tire insert 10 in place on the tire. Tabs 30, 40, 50". The bent corresponds to the claimed pivot.

Allowable Subject Matter

4. Claims 1-7, 9, 10, 12, 14-17, 19, 22-24 are allowed.

Response to Arguments

5. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.
